

Dear sir,

I have extended my subscription for 2 more years , because XM offers alot more to me then AM or FM does. If regular radio did I would stay with it. Being a over the road driver I prefer to listen to openroad with Steve Sommers, Bill Mac, and Dave Nemo because they keep me awake as FM or AM don't.

The traffic and weather stations are handy to keep truck drivers informed of current traffic and weather conditions up to the minute, in the major cities that we travel, before we get there.

FCC please reject NAB'S petition 04-160.

Thank you Jackie and Matt Downing, SR.
